Education

Nazarbayev University — Astana, Kazakhstan
Bachelor of Science in Computer Science — Sep 2023 – May 2027
- Top 20% of the class by GPA; State Grant holder

ITStep Academy — Astana, Kazakhstan
Front-End Development Course — Sep 2022
- Learned HTML, CSS, JavaScript, React, Vue, Angular

nFactorial Incubator (Chevron Grant) — Satpayev University
10-week Incubator Program — Summer 2025
- Developed a full-stack AI-powered web application in a team environment; won 3rd place at hackathon

Experience

Salesautomators — New York, USA
Front-End & Mobile Developer — Nov 2025 – Present
- Developing production web and mobile applications using React, React Native, and TypeScript.
- Implementing telephony and communication features using Twilio API, JustCall, Zoiper.
- Building modern, responsive UI using Material UI and custom reusable components for scalable products.
- Collaborating with backend developers and product managers, participating in sprint planning, task tracking (ClickUp), and time tracking (TimeDoctor).

Projects

- **Bailanysta (Social Network)** – Built a React-based Twitter-like social platform with posts, and user feed. Implemented dark mode, likes, and subscriptions.
- **LeonGram (Messaging App)** – Telegram-inspired messenger with AI assistant features. Developed with React + FastAPI backend.
- **ChatHut** – Web app-client for multiple messengers (Telegram/WhatsApp) with Cursor-like AI assistant. Built during nFactorial Incubator, presented at Demo Day.
